General clarifications on instruments for evaluation:

The student who has not taken part in a number of evaluable activities whose weightings on the final grade add up to more than 50% (Art. 80.4 of the Academic Regime Regulation of Degree Studies) will correspond to the grade of "Not presented".

For the student who has completed other assessment activities than the final exam whose cumulative weight on the final grade exceeds 50% and has not attended the final exam of the course, the teacher will record "Not presented" in the provisional publication of the ratings.

ADDENDUM TO THE COURSE DESCRIPTION

If during the review process, the student does not express his disagreement with that grade, it will be consolidated into the final grade for the course. Otherwise, it must be communicated to the teacher and the final grade would be the weighted sum of the scores reached in all the evaluation methods according to the criteria established in this addendum.
